

## Peter Gietz

Peter Gietz, CEO of DAASI International GmbH since 2001, has an MA in humanities and was active in the field of IT since 1984. He is internationally recognized as an directory expert, with core expertise in X.500, LDAP, PKI, Metadata, ehumanities and Grid Computing. Since 1994 he worked for DFN research projects on directory technologies, which he lead in the last phases. From 1998 to 1999 he worked for DANTE (Delivery of Advanced Network Technology for Europe), Cambridge, where he was responsible for the NameFLOW project and maintained the root of the international X.500 Directory. From 2008 to 2010 Peter set up and lead the IT department of the Cluster of Excellence "Asia and Europe" at the University of Heidelberg.
